June 14

Summary

GAIAOSE SA, following the no 200/A2/5-06-2014 decision of the Board of Directors, calls on interested investors to submit non-binding proposals concerning the development and operation of the Thriasio Pedio Freight Centre. The broader area of the Thriasio Pedio Complex of railway Facilities in which the Freight Centre will be developed, includes:

- a. railway yard and cross docking facilities constructed in an area of 145 hectares owned by OSE SA and,
- b. an area of 58.8 hectares owned by GAIAOSE, dedicated for the freight center, suitable for the construction of 235.000 m² of building areas.

The site has road access to Attiki Odos motorway and NATO Avenue as well as direct rail access to the national railway network and the commercial port of Piraeus (Neo Ikonio).

The strategic objective of GAIAOSE is to create an International Freight Centre through a public-private partnership, which will contribute to the increase of the volume of freight carried by rail while raising the country's profile as a key gateway for the movement of freight on trans-European transport networks. By means of this invitation GAIAOSE SA calls on interested investors to submit non-binding proposals concerning the development and operation of the Thriasio Pedio Freight Centre. GAIAOSE SA will evaluate the proposals submitted and take them into account in framing its model of partnership with the private investor(s) to be selected by a subsequent tender for the development and operation of the Freight Centre.

The deadline for the submission of proposals is Friday the 11th of July 2014, time 16:00.

The Invitation document is available in electronic format in Greek and English language, after submitting the relative application.
